Name three personality traits that best describe you. I think most people would say that I am passionate, compassionate and understanding

What annoys you most - and why? I certainly can't pick the "late" issue, because as my husband says, I always think I can get one more thing done...and then end up rushing to appointments. That's a fault I am working on. I think the one thing that annoys me most is when people are not open to various ideas and perspectives. I find that when I am open to seeing issues from other people's perspectives, that either helps me firm up my view point and state it more clearly. Or it helps me move off dead center and discover other ways that might just be more effective or impactful. Additionally, there have been times when the merger of thoughts or ideas have helped us carve out new paths and solutions that are a blend of several thought patterns and perspectives.

What has been your favorite mission experience or what United Methodist Mission touches your heart most? Wow, there have been so many times my spirit has been moved beyond this realm to experience a brief but impactful HALLELUJAH! My heart is always touched when I am in gatherings of our global church and I hear the stories of how we are collectively touching individual lives and situations all over the world. My heart is also touch when tears roll down the cheeks of a person who receives that cup of water or crust of bread or that hug of acceptance and compassion that they long for.

What has been your favorite vacation? Several years ago we took our first family cruise vacation since our children were grown. It was great being together and experiencing their excitement.

What faith based book has been inspirational to you and why? I enjoy reading Joyce Rupp, Howard Thurman. However Dr. Martin L. Kings, Strength to Love, still challenges me to grow and move beyond the comfort zones in my life.

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? Lately, I've been drawn to movies that focusing more on the resilience of humanity than the goodness of humanity. Consequently, movies like "Precious" have drawn me in more. I know too many children for whom those situations are real. So I ask "Where is God?" And I see God somewhere deep down inside this wounded soul that refuses to give up. I see God in the loving teacher and demanding Social worker.

Who is the hero/heroine that has been an inspiration for your life? Sunday School teachers like Mrs. Bennett and Mrs. Justice, pastors like Emmett Streeter, Bishop Leontine TC Kelley, and historical figures like Harriett Tubman, and MLKing join the ranks of my mother and my father Pauline and Fred McGruder as my heroes/and heroines

years old, lives with us. We are his legal guardians. He calls me “Dad”, and loves to do everything I do and go everywhere with me. Pets – a Yorkie and miniature Dach.

What is your passion and profession (inside or outside the church)? Passion inside the church – a District Superintendent for the Wichita East District, Kansas West (began July 2009). I love to preach, encourage, and strategize on ways to become a more effective leader. I love the “win-win” scenario, and believe that no one needs to lose. In this role as DS, I have witnessed and been amazed at the great faith and resources our churches have, and hope to channel these where I can to be more effective in disciple making for Jesus Christ.

What do you do for fun and enjoyment when you are not serving in ministry? I like to ride a bicycle (Bicycled Across Kansas 8 different years), play the piano, and tinker with woodworking.

Name three personality traits that best describe you. Happy, possibility thinker, encourager.

What has been your favorite mission experience or what United Methodist Mission touches your heart most? Local mission projects that “paint and repair” in the community in which I live – I like being part of the answer, rather than part of the problem. I have also done mission trips where I have traveled. I’ll never forget replacing blown away shingles on a roof in Carlsbad, New Mexico. The 6 year old boy of the family we were helping wanted up on the roof with me (it was a gentle slope). I was teaching him how to replace shingles and hammer nails. While he was hammering a nail, he missed and hit his thumb instead. He looked at me with great pain. I told him, “Just say ‘Praise the Lord’”, which he commenced doing in rapid succession for the rest of the day.....

What has been your favorite vacation? Riding my road or mountain bike in the Colorado mountains – following trails, creeks, and switchbacks.

What faith based book has been inspirational to you and why? Ken Collins book, “The Scripture Way of Christianity”. It is a great primer for folk in the pew to understand the theology of John Wesley, and to ask “how can I extend the grace of God in my life?”

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? “Coach Carter” – an excellent feature film about the joys and pitfalls of leadership. “The Blind Side” – with Sandra Bullock – a true story of how a family takes in a homeless youth, and loves him into the fullness of life – he becomes a professional football player. Great movie – thought provoking.

Who is the hero/heroine that has been an inspiration for your life? Captain James T. Kirk – of the Starship Enterprise – going where no one has ever gone before – daring to risk, refusing defeat, and forging a path for what is right and good, no matter what the personal cost.

Billy Graham – one TV evangelist that didn't go bad – he kept integrity, he walked the talk, and he believed passionately in what Christ's mission was through him. I didn't always agree with him, but I want to walk the talk and do the right thing because of him.

My grandfather Elmer and grandmother Lois – Elmer was the minister, Lois the musician that taught me music – “anyone can bang on a piano – but can you make music with it?” My father Bob and mother Maxine – Bob is the minister, Maxine the school teacher – who raised me to “do the right thing – always, period.”

What is your favorite food? Pepperoni Pizza, MacDonald's French Fries (all in moderation, of course), and whatever my wife, Jeanne, likes to eat. Eating with her makes just about every kind of food delicious.

What legacy would you like to leave? I would like people to remember that I made a difference – having left the landscape of life better for my having been here. I want people to believe, “He always did the right thing, to the best of his ability.” “I would want them to remember my motto – “I would rather help and find later that it was a mistake, than to have not helped, and find that it was Christ knocking at my door.”

What is your passion and profession (inside or outside the church)? I was a Kansas State Legislator for ten years, left to become the Executive Director of a national women's legislative organization for another ten years, and then “retired” to become a full-time volunteer in the UM Church of the Resurrection and Kansas East Annual Conference. I love to travel and learn new things about cultures and people.

I also like to read and write but since Jason's death it has been difficult to concentrate on writing. Now with grandchildren fun and enjoyment is being the best "Nana" I can be.

Name three personality traits that best describe you. Passionate, activist, visionary

What annoys you most - and why? People who are not honest about how they really feel and are critical of anyone who disagrees or debates or offers constructive criticism within the church . . . "because Christians should not disagree." (I remember the first time I was the only NO vote at a church council meeting . . . I felt the stares of every person around the table as they told me no one ever voted No before. I broke that mold!)

What has been your favorite mission experience or what United Methodist Mission touches your heart most? In 1997-98 I was in Russia and Africa. Both countries had experienced major changes in their governments. To be at different ends of the world and witnessing such differences in histories, geography and culture was amazing to me. It changed my life as I realized that modern advances in travel and technology brought the world much closer together. I truly understood what it meant to be "brothers and sisters in Christ" and the impact of a connectional church.

What has been your favorite vacation? As a family we have traveled nationally and internationally quite a bit, but perhaps the most memorable vacation we took was to Australia when our sons were young. They became seasoned travelers and culturally aware of differences in the world at a young age which helped shape their lives. But in reality a "favorite" vacation is probably the last one taken.

What faith based book has been inspirational to you and why? I am an avid reader and yet there is no one book that I could name, but I do have favorite authors I enjoy reading, i.e., Henry Nouwan, Leonard Sweet, Richard Foster. (Oops, Bishop Jones and Adam Hamilton too!)

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? I travel to Africa frequently and have watched the changes in South Africa since Apartheid. I have been inspired by Nelson Mandela's "Long Walk to Freedom," and by the recent movie *Invictus* which shows how forgiveness can change the future of a nation.

Who is the hero/heroine that has been an inspiration for your life? My mother, who trusted God to care for her and her family despite many tragedies in her life. She set a wonderful example of faith, hope and love.

What is your favorite food? Artichokes and Avocados

What legacy would you like to leave? That I was a servant of God who strived to do His will, making the best decisions that I could with the knowledge and understanding I had at that time, that I gave more to the world than I took and left it in a better place, that I acted justly, loved mercy and walked humbly with my God . . . and when I heard His call I strived to faithfully say "Here I am, Lord." And, of course, that I was a good and kind person in all roles throughout my life.

What has been your favorite mission experience or what United Methodist Mission touches your heart most? I recently went on a friendship mission trip to Chile with my wife and mother.

We experienced such wonderful Christian hospitality from the families of our friends. I also learned more about the spread of Wesleyanism to South America (though I have much more to learn).

What faith based book has been inspirational to you and why? The Hauerwas Reader has been inspirational and thought provoking, because it covers so many areas of Christian life and offers a consistent interpretive lens on how to be a faithful Christian community after Christendom.

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? I don't know that this is a very good answer since the main character is a robot, but I recently watched Wall-E and loved it. Near the end, one of the humans has a stewardship epiphany: the earth just needs someone to take care of it. Then he reroutes the ship and heads back to earth to get to work.

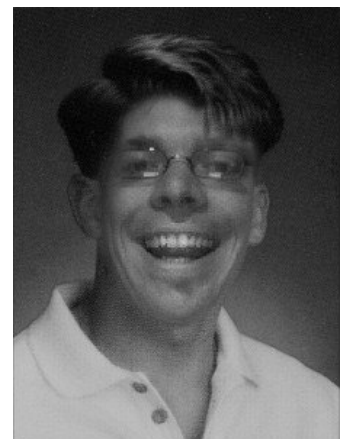

Who is the hero/heroine that has been an inspiration for your life? I'm really not one who thinks in these terms, but my grandfather, more and more as I get older, is a great witness for the Christian life lived well, as a servant, a leader, a father, and a friend.

What has been your favorite mission experience or what United Methodist Mission touches your heart most? Even after living in Mexico for 8 years, I am now experiencing new heart-moving mission experiences here in Kansas. Who is the hero/heroine that has been an inspiration for your life? Other than Jesus, my dad has been the greatest inspiration for my life, though most would not call him a hero. His patience through the years and faithfulness in caring for my mother through her Alzheimer's was heroic to me.

We thought it would be the last vacation before kids and we just had a great time together.

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? Pay it Forward. Shows how good people can be but also shows that there can be a cost - a sacrificial element - to that goodness.

Name three personality traits that best describe you. Creative, relational, sensitive

Office Phone: 785-246-1737

Tell us about your family (marital status, spouse's name, children, names/ages, pets, etc.)?

I am married to Rev. Mitch Todd, we are proud parents of an Australian Shepherd/Lab Mix named Charlie. He celebrates his fourth birthday in January.

What is your passion and profession (inside or outside the church)? I am passionate about transforming the world with the love of Jesus Christ and pointing people toward the experience of God in their lives. I like to use a variety of approaches - whatever works to invite people to know this amazing grace and life giving power that God has given in Jesus. I like to champion concepts and ideas that challenge us to live as people who are awed by the potential and gifts each human and creature possesses. I like it when people act like the "kingdom" is before them (although I struggle with the word *kingdom*). I am a feminist/liberationists/evangelical/liberal who sometimes lands on the conservative side. I try to be a person who doesn't force any of that onto others lives - I just live it out to the best of my ability and hope that it is Christ that people see - not my choices only.

What do you do for fun and enjoyment when you are not serving in ministry? Trailing with my dog, playing Rock the band on Wii with Mitch (love the drums!), reading more books than I can finish, getting coffee with people and learning about their lives, singing and writing music, seeing movies (LOVED Avatar!) and I love being with my husband - we have a blast together:)

Name three personality traits that best describe you.

- Aiming for grace in all things
- High, high, high expectations - grounded, however, with love and understanding
- Philanthropist - I'm a lover of people and I get so interested in human life from many perspectives

What annoys you most - and why? I don't like it when people are not willing to make a decision. I know that it is difficult sometimes, and decisions need discernment. I do think that good deadlines and voting helps. I also believe that people should vote based on what they really feel and think is true. Most important decisions require prayer, although not all decisions require it. I find that praying over every decision can slow down the spirit of the group even though I believe that the Spirit at all times is willing to help.

What has been your favorite mission experience or what United Methodist Mission touches your heart most? WOW - I really like mission - have been on over 20 mission trips. Recently, our church went Chapman, Kansas after a Tornado devastated the town. Gutting, roofing, dry walling - I love it all. But most of all, I love getting to know and serve the families who need to feel loved and cared for. When we work together on getting their lives back on track - there's no greater feeling. I glean so much from each mission experience - gaining knowledge of God's world through the stories of the people I get to encounter on those missions. I also get a kick out of how each mission team is different. I've worked with teens, college students and a whole teams over the age of 65. All were different, all a blessing.

What has been your favorite vacation? Jamaica - definitely - still dream of it.

What faith based book has been inspirational to you and why? I know that she can be a bit light in reading - but I just read Marianne Williamson's Everyday Grace. I tend to read heady books a lot and it was really nice to look forward to her words of grace. I also read Henri Nouwen recently- I think I'm in a bit of a mystical mood right now. I go through phases. Also reading David Tracy and Richard J. Foster.

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? Avatar - loved it - see it in Imax 3D if possible. Fun note - a member of our church is a compositor and worked on the CGI. If you see it I'll tell you which parts as not to spoil it :)

Who is the hero/heroine that has been an inspiration for your life? Sounds cliché - my mom and dad. They keep learning and growing in faith and never stop living their faith. My dad has an old Methodist prayer book from the 1800's - we have more theological discussions that can last for hours. My mom is always challenging the church to "think outside the box". They retired in South Texas and moved from a large church (Derby, Woodlawn) to a small church of snowbirds and those who had retired. They hadn't had VBS in years because they "had no children in church". Mom said "but we have children in the community" -who were mostly Hispanic. They held a VBS with 25 children that year. My mom and dad keep living their faith and it inspires me every day.

What is your favorite food? Middle Eastern food - Greek too! I love dolmas, hummus, chicken schwarma....makin' me hungry!

What legacy would you like to leave? For churches and people to learn what transforming grace can do in their lives. Not just receiving grace, but responding to it. In terms of the church - Sanctification realized:)

Tell us about your family (marital status, spouse's name, children, names/ages, pets, etc.)? I am married, my wife's name is Linda. We have one grown son, Jay Watson, who lives in Tempe, Arizona. We have no pets at present, our Beagle of 16 years died about 2 years ago and we opted not to replace her at this time.

What is your passion and profession (inside or outside the church)? I am an attorney in Kearney, Nebraska. I work primarily in three areas, Workers' Compensation, Social Security Disability, and tax planning and preparation. My passion within the church is for Biblical literacy and evangelism.

What do you do for fun and enjoyment when you are not serving in ministry? For fun, I play golf, and do so as many weekends as I can in good weather. I also enjoy reading, but do a lot of that professionally.

Name three personality traits that best describe you. Patient, Optimistic, Facilitator/
Summarizer

Things that annoy me: When people are too unfocused. By that I mean when people take the discussion into areas that do not seem relevant. I realize this is my judgment about relevancy. Further, when people use 100 words to say what could easily be said in 10. Also, I find myself somewhat annoyed by the mis-use of words, particularly “imply” and “infer”; and “affect” and “effect”. Just a quirk of mine.

What has been your favorite mission experience or what United Methodist Mission touches your heart most? My favorite mission experience was a VIM experience with a team from our church in Kearney, Nebraska to Nueva Laredo for a week. This occurred when our son was still small, about 3rd grade, we lived with a family of the congregation for that week, and worked on an addition to their church for Sunday School classes.

What has been your favorite vacation? My favorite vacation is probably a trip that Linda and I took in October of 2008 to Eastern Europe for 17 days. We traveled with a group and visited the Czech Republic, Poland, Hungary, Croatia, Slovakia and Slovenia.

What faith based book has been inspirational to you and why? For years I have enjoyed the writings of C. S. Lewis and particularly “Mere Christianity” and “The Great Divorce”. When our son was little, we read the Chronicles of Narnia every night before bed.

What movie would you recommend to a person who wanted to be inspired by the goodness of humanity? Why? I really don’t know what movie I would recommend to a person who wanted to be inspired by the goodness of humanity. I am not much of a movie person and haven’t actually attended a movie in years, but have watched movies run on TV. A movie that I have enjoyed numerous times and which, in my opinion would fall into this category, would be “City Slickers”. It is about fresh starts and “do-overs”.

Who is the hero/heroine that has been an inspiration for your life? I don’t know that I can answer that question directly. The word “the”, limits it to one person and I can’t do that. I really don’t identify anyone that I have considered the inspiration for my life. If the question relates to the person(s) that have been most influential in my life, there are six. My mother; my paternal grandfather; the farm neighbor I worked for after my father’s death; two aunts; and my college advisor, Clayton Yeutter.

What is your favorite food? I really like almost all food, except liver. However, a favorite of mine is ham and navy bean soup with cornbread.

What legacy would you like to leave? I would like persons to have a desire to study the Scriptures, not just read them. To make inquiry into what the words they read mean in order to have understanding.
