### Volunteer Counselors

We welcome your ideas... CRAFT or Supply materials!

If you have an **idea for a craft or a small project for your campers**, that may require additional supplies and materials. Please **complete the bottom portion of this form and send to camp** as soon as possible so we may purchase in time for your camp session. (Two to three weeks prior to your arrival would be the best time line to notify our Office of what you need.) The camp does have craft projects planned for each camp session during the summer season, but we know sometime volunteers may have some ideas to share to, that's why we add this feature.
